

SOEN 331 - Anything - Sprint 3 Meeting Minutes #1

Date: November 11, 2024

Location: Online via Discord

Type: Regular Meeting

Minute Taker: Han Lee

Start Time: 3:05 PM

End Time: 4:20 PM

Absentees: N/A

Meeting Agenda

- Go over the Sprint 3 requirements
- Think of unique features
- Think of unit testing

Key Discussion Points

1. Project Outline Review

- Discussed what we have achieved so far and what is left to work on.
- Identified required features and technical specifications.

2. Sprint 3 requirements

- Need to implement unit testing
- Make more tasks to achieve what is required in Sprint 3
- Most of the features has already been completed from Sprint 2

3. New ideas

- Upon logging in, the welcome message displays the username you registered with.
- When providing review to the system, the system identifies the user by their unique email address, preventing duplicate confusion (e.g., Parsa and SeyedParsa).

4. Next meeting confirmation

- At the moment, no team members have a clear understanding on Unit Tests.
- Therefore, we've come to a conclusion to learn more about unit testing in our own time and meet again on the following day (November 12, 2024) to start working on immediately

TODO Items until Next Meeting:

- Learn unit testing (**Crucial**)
